- Highlight: 8cbm mobile diesel dispenser, customized mobile diesel dispenser, customized mobile dispenser diesel

Product Description

White Fuel Mobile Dispenser with Customized Design and Features

Product Description:

The Mini Fuel Station features an automatic nozzle type that ensures safe and accurate fuel dispensing. This feature is ideal for those who need to dispense fuel quickly and efficiently without worrying about spills or accidents. With its automatic shut-off and overfill protection, the Mini Fuel Station ensures that you can dispense fuel safely and with peace of mind.

One of the standout features of the Mini Fuel Station is its certifications. It is UL listed and CSA certified, which means that it has been tested and approved for safety and performance. This certification ensures that you can rely on the Mini Fuel Station to deliver high-quality fuel dispensing, no matter where you are.

The Mini Fuel Station is powered by electricity, which means that you can easily charge it up and use it wherever you need it. This makes it perfect for businesses that need to provide fuel to their employees or for individuals who need to refuel their vehicle while on the go.

Overall, the Mini Fuel Station is an excellent product for anyone who needs a mobile gas station solution. Whether you are a business owner, fleet manager, or individual, the Mini Fuel Station is an effective and efficient way to dispense fuel. With its automatic nozzle type, certifications, and safety features, you can trust the Mini Fuel Station to deliver reliable and safe fuel dispensing every time.

Key Features:

Automatic nozzle type

Can dispense gasoline, diesel, and new energy

UL listed and CSA certified for safety and performance

Powered by electricity

Overfill protection and automatic shut-off for safety

With the Mini Fuel Station, you can have a Fuel Mobile Dispenser that is easy to use, safe, and reliable. This mini fuel station is perfect for businesses that need to provide fuel to their employees or for individuals who need to refuel their vehicle while on the go. You can rest easy knowing that the Mini Fuel Station is UL listed and CSA certified, ensuring that it meets the highest standards for safety and performance.

Applications:

One of the key applications for the Virette C1 is as a Fuel Mobile Dispenser for fleets of vehicles. This could include everything from small delivery vans to large construction trucks, allowing companies to easily refuel their vehicles on-site rather than having to make trips to a traditional gas station. The Virette C1 is also a great option for agricultural operations, where it can be used to fuel tractors and other equipment in the field.

For individuals, the Virette C1 makes a convenient and cost-effective alternative to traditional gas stations. It can be used for personal vehicles, boats, and even generators during power outages. The automatic shut-off and overfill protection features make it a safe choice for home use, and its small size means it can be easily stored in a garage or shed when not in use.

The Virette C1 is also a great option for mobile gas station needs, such as at events or festivals. Its small size and ease of use make it a popular choice for small businesses looking to provide fueling services for customers on the go. Additionally, the Virette C1 is compatible with a variety of fuel types, including gasoline, diesel, and new energy options, making it a versatile choice for a range of applications.

Made in China, the Virette C1 is priced between 1000-5000USD, and has a delivery time of 20 days. Its white color and automatic nozzle add to its sleek and modern design, making it a functional yet stylish addition to any setting. With a voltage of 220V and a range of safety features, the Virette C1 Mini Fuel Station is a convenient and reliable choice for all your fueling needs.

Customization:

Customize your Virette Mini Fuel Station (Model C1) to fit your specific needs!
