Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Outlet: NPT2"
- Sealing Ring Included: Yes
- Type: Electric
- Warranty: 1 Year
- Duty Circle: 30 Min
- Sending Unit Included: No
- Inlet Type: Strainer
- Engine: Diesel Fuel Engine Parts
- Highlight: **30Min Diesel Engine Fuel Pump ,
Fuel Pump With Inlet Strainer ,
Outlet NPT2 Fuel Pump**

Product Description

Diesel Fuel Engine Parts Electric Fuel System with Inlet Strainer

Product Description:

Designed for universal compatibility, this electric fuel pump is perfect for use with a wide variety of vehicles, including cars, trucks, and SUVs. Its versatile design makes it ideal for both petrol and diesel fuel injector systems, ensuring that you can keep your vehicle running smoothly and efficiently no matter what type of fuel you use.

With its high-quality construction and reliable performance, this electric fuel pump is built to last. Its durable materials and sturdy design make it ideal for use in even the harshest of conditions, ensuring that you can always count on it to deliver reliable and consistent performance.

Featuring an inlet type strainer, this fuel pump is designed to effectively filter out impurities and contaminants from your fuel, ensuring that your engine receives only the cleanest and highest quality fuel possible. This makes it a great option for use in a wide variety of applications, including petrol pumping units and diesel fuel injector systems.

While this electric fuel pump does not come with a sending unit, it is still a great option for those looking for a reliable and efficient fuel pump solution. Its easy installation process and universal compatibility make it a great choice for both professional mechanics and DIY enthusiasts alike.

In summary, our universal electric fuel pump is a versatile and reliable option for anyone in need of a high-quality fuel pump solution.

Whether you're looking to keep your petrol pumping unit running smoothly or need a reliable diesel fuel injector system, this fuel pump is sure to meet all of your needs and exceed your expectations.

Features:

Product Name: Fuel Pump

Sealing Ring Included: Yes

Duty Circle: 30 Min

Type: Electric

Engine: Diesel Fuel Engine Parts

Outlet: NPT2"

Used for: Filling Station Dispenser, Fuel Dispensing Pump, Filling Station Dispenser

Applications:

With the sealing ring included, the Virette f0 fuel pump ensures that there is no leakage of fuel during transfer. It is made in China with high-quality materials and has a duty cycle of 30 minutes. The inlet type is a strainer, which prevents any impurities or debris from entering the fuel system.

The Virette f0 fuel pump is suitable for different occasions and scenarios. It is perfect for use in gas stations, where it can be used as a petrol pumping unit. It can also be used in construction sites, where diesel fuel engine parts are used to power heavy machinery.

The Virette f0 fuel pump is lightweight, weighing only 15kgs, making it easy to transport from one location to another. It is suitable for use in both small and large vehicles, providing a reliable and efficient fuel delivery system.

Customization:

Customize your Fuel Dispensing Pump with Virette's f0 model from China. This Electric Fuel Delivery System is designed for Diesel Fuel Engine Parts and has an Inlet Type of Strainer. It comes with a Sealing Ring Included and weighs 15Kgs. Please note that the Sending Unit is not included.

Upgrade your Gasoline Infusion Machine with Virette's f0 model from China. This Fuel Dispensing Pump has an Inlet Type of Strainer and comes with a Sealing Ring Included. It is designed for Diesel Fuel Engine Parts and weighs 15Kgs. Please note that the Sending Unit is not included.
